Positive Reinforcement Program

PROGRAM PLAN

Beginning at 0000 on June 09, 2005 all department start with a clean slate: zero alcohol-related incidents. Progress will be maintained and accessible to everyone on the intranet by dept, showing number of consecutive days since last alcohol related incident. Incidents include DUI's, underage drinking, drunk and disorderly. Each incident will start the depts. counter over. Courtesy turnovers, unless incident involved, and free ride homes will not be counted as incidents.

For the departments that do not have an alcohol-related incident, the following rewards will apply:

- 30 consecutive days with no ARI will give the dept 72 hours special liberty (Friday - Sunday)**
- 60 consecutive days with no ARI will give the dept 96 hours special liberty (Friday - Monday)**
- 90 consecutive days with no ARI will give the dept 96 hours special liberty (Friday - Monday), and MWR event.**

Departments reaching any of the above milestones will ensure that liberty will be granted as workload permits. This is not meant to be a day at a time, but for the entire 96 hours when able.
